40 YEARS OF DESIGN AND DEVELOPMENT | ALPHA LIMITED EDITION

answer

Answer Racing started in 1976 with the goal to provide hardcore motocross enthusiasts with products they can trust. Fast forward to today and Answer Racing has not lost sight of the original vision. Whether you are a diehard racer or a weekend warrior, we've got you covered. At Answer Racing, we engineer our gear not only for superior protection, but also for a comfortable fit, because with our years of extreme moto experience behind us, we know what it takes to win races and look good doing it.

ALPHA AIR

ATTACK POSITION

Pre-shaped knees fit best in "attack position" with room for knee braces

LEATHER

Genuine leather inner knee panels resist burning & hot exhaust temps

VIBRANT/FADE-FREE GRAPHICS

Vibrant, fade-free sublimated fabrics that don't fade after multiple washes

RED/ACID

MIPS SYSTEM //
MULTI-DIRECTIONAL IMPACT PROTECTION SYSTEM

SIMPLY THE MOST ADVANCED
SAFETY TECHNOLOGY.

MIPS

MULTI-DIRECTIONAL IMPACT PROTECTION SYSTEM

MIPS changes the way to think about helmet safety. Developed by brain surgeons and scientists to reduce rotational forces on the brain caused by angled impacts to the head. Adding MIPS to the Evolve 3 helmet brings state of the art safety technology other companies charge double the price for. Modern helmet shells have many sculptured ridges and valleys in them. Most helmets, including some very expensive brands, do not have an impact absorbing EPS liner that follows and fills in those peaks and valleys. The Evolve 3 MIPS dual density liner does fill in those peaks and valleys and this creates improved impact absorption. Safety is key with all our helmets and the Evolve 3 MIPS passes two of the toughest safety standards today.

- Meets or exceeds the ECE 22-05 safety standard
- Meets or exceeds the D.O.T. FMVSS 218 safety standard
- Shell made of injection molded polycarbonate
- MIPS liner in between the comfort foam and the dual density EPS liner
- SilverCool® moisture wicking liner is removable for washing
- SilverCool® padding also reduces odor and is anti-microbial
- 9 intake and exhaust vents help keep you cool
- 4 eyebrow vents help evaporate sweat before it drips into eyes and goggles
- Wire mesh chinbar vent has foam filter
- Weight 3.2 pounds, 1450 grams (size medium)

**IN LABORATORY TESTING MIPS REDUCES ROTATIONAL
FORCES FROM AN ANGLED IMPACT.**

ANSR 1 BOOTS

New for 2016 the ANSR AR-1 boot represents a new idea in motocross boots. Inexpensive boots have been around for a long time and no brand had ever really tried to make them good. The AR-1 boot is better than good, it offers you far more than is offered by any other boot in it's price range. Using just the right combination of synthetics, plastic and high performance textiles we've created an upper that is light, durable and protective. We coupled that to a four layer sole system that we stitched on for a foolproof and long lifespan that is easy to re-sole when the time comes. Most importantly this is the only MX boot in the market to feature a shock-absorbing insole made by D30®. This D30 Cushioning Insole is a lightweight, resilient footbed which combines D30® Lite with a high performance, shock absorbing D30® Decell heel insert. This provides comfort at varied impact energies, thanks to rate sensitive technology. This not only makes it an incredibly comfortable boot the D30® progressive cushioning can help reduce the risk of lower limb injuries.
